

Dear Parents,

We have been advised by the HSE Officer from Toowoomba Catholic Education Office to obtain parental permission before applying Rapaid and Mundicare First Aid Antiseptic Sprays on students.

Rapaid and Mundicare are 'no touch' natural antiseptic relief sprays containing tea tree oil. They are ideal for use on cuts, abrasions, bites, stings, itches, and minor skin irritations to relieve and protect against infection. They contain Melaleuca Oil 40mg/g and hydroxybenzoates as a preservative.

Would you please complete the permission form below and return it to school as soon as possible.

Yours sincerely

Janine Butlin
Principal

I DO / DO NOT (**please circle**) give permission for Rapaid and Mundicare First Aid Antiseptic Sprays to be applied to my child/children when necessary.

Please list child/children and Year level:
